30 - 150 TON ALUMINUM CYLINDERS

RAC SERIES

Up to 60%
Lighter Than
Steel Cylinders.

- 13 standard models from 30 through 150 tons.
- Heavy duty spring for fast & full retraction.
- Large bearing surfaces for side load protection.
- Carrying handles standard on all models.
- Hard anodized coating reduces wear & corrosion.
- Stop rings for piston blow-out protection.
- Rod wiper protects inner cylinder from dirt.
- High flow quality couplers.
- Complies with ANSI/ASME B30.1 safety standards.

* Power pumps are suggested for these units.

Up to 60%
Lighter Than
Steel Cylinders.

- 11 standard models from 50 through 150 tons.
- Locknuts for extended load holding.
- Large bearing surfaces for side load protection.
- Hard anodized coating reduces wear & corrosion.
- Carrying handles standard on all models.
- Rod wiper protects inner cylinder from dirt.
- Stop rings for piston blow-out protection.
- Heavy duty spring for fast & full retraction.
- High flow quality couplers.
- Complies with ANSI/ASME B30.1 safety standards.

CENTER HOLE ALUMINUM CYLINDER

RAC & RACD SERIES

**Up to 60%
Lighter Than
Steel Cylinders.**

- 4 standard single-acting models in 30 and 60 tons.
- 14 standard double-acting models in 30 thru 150 tons.
- Chrome plated center sleeve for extra protection against wear & corrosion.
- Heavy duty spring for fast & full retraction.
- Hard anodized coating reduces wear & corrosion.
- Carrying handles standard on all models.
- Steel base & piston for protection against load damage.
- Large bearing surfaces for side load protection.
- Rod wiper protects inner cylinder from dirt.
- Complies with ANSI/ASME B30.1 safety standards.

* Power pumps are suggested for these units.

- 5 standard models in 30 and 70 cu. in. reservoirs.
- Weighing just 9 lbs with a full 70 cu. in. of usable oil gives the P71 & P72 the highest available capacity at the least amount of weight.
- P30 is ideal for low pressure application when a small light weight pump is required.
- Carrying handles standard on all models.
- 25% faster per stroke than comparable pumps equals less work for the operator.
- Low handle efforts means less strain for the operator.
- All alloy construction resists corrosion.
- All Silver Lite pumps stand up to heat, welding sparks, and other harsh environments.
- Complies with ANSI/ASME B30.1 safety standards.

Light Weight Aluminum Hand Pumps for Single-Acting Cylinders & Tools

Model Number	Speed	Pressure Rating (PSI)		Oil Volume Per Stroke (cu. in.)		Usable Oil Capacity (cu. in.)	A (in)	B (in)	C (in)	D (in)	E (in)	F (in)	G (in)	H (in)	Weight (lbs)

SILVER LITE HAND PUMP & CYLINDER SETS

- Maximum versatility with a wide variety of cylinders.
- Optimal performance is provided with matched hand pump & cylinders.
- Use cylinders in upright, inverted or horizontal position.
- Maximum control & safety is provided with the pressure gauge included.
- Heavy duty spring for fast & full cylinder retraction.
- High flow quality couplers.
- Complies with ANSI/ASME B30.1 safety standards.
